

- Compatible with Express® Lavatory Systems — SS-Series or EXD-Series
- Cover is Constructed of Vandal Resistant Terreon® or Terreon®RE Solid Surface Material
- Uses Standard Plastic Trash Can Liners
- Available in 32 Colors

Specifications

Terreon and TerreonRE Waste Receptacles, Model SS-WR, feature a solid surface cover and vacuum-formed acrylic laminate base. The waste receptacle and Terreon or TerreonRE cover come equipped with support brackets and mounting hardware. Install this Waste Receptacle between Express Lavatory Systems — SS-Series/EXD Series and/or at the end of an alcove.

Construction

Cover

Constructed of Terreon, a densified solid surface material composed of polyester resin, or TerreonRE, a densified solid surface material composed of a bio-based resin and preconsumer recycled granules. Terreon and TerreonRE are resistant to chemicals, stains, burns and impact. Surface damage can be easily repaired with everyday cleansers or fine grit abrasives. Terreon and TerreonRE are certified by NAHB to meet ANSI Z124.3, Z124.6 and ANSI/ICPA SS-1-2001. Terreon and TerreonRE are GREENGUARD® certified as low-emitting materials.

Receptacle

Receptacle panel is a vacuum-formed acrylic laminate. Highly resistant to impact, abrasion, acid and corrosion, the panel will not chip, peel or flake. Receptacle is reinforced with two heavy-gauge stainless steel brackets.

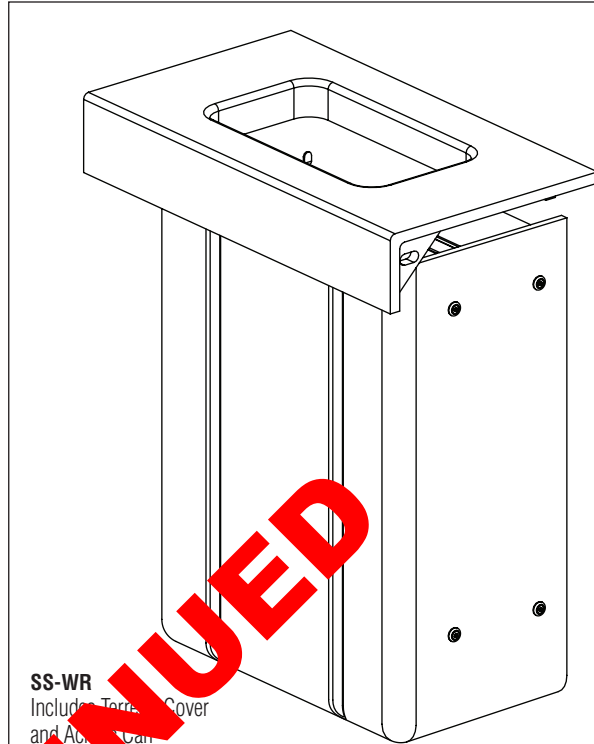

Mounting Options

The waste receptacle is designed to be mounted between two Express Lavatory Systems — SS or EXD-Series, or between an Express Lavatory System — SS or EXD-Series and an alcove wall. Terreon and TerreonRE covers can be modified on the sides to accommodate spans of 17" to 20".

Code Compliance and Certifications

ANSI Standards

Terreon and TerreonRE are NAHB certified to meet ANSI Z124.3, Z124.6 and ANSI/ICPA SS-1-2001.

SS-WR
Includes Terreon® Cover
and Acrylic Receptacle Panel

Verify all rough-in dimensions prior to installation.

Consult local and national codes. Conformity and compliance to local and national codes is the responsibility of the installer.

Dimensions

DISCONTINUED

* 20" is a maximum dimension for back of Terreon cover. Using the template provided and a carbide-tip blade, this dimension can be reduced to 19" to allow for in-field variances between Express Lav Bowls and the alcove wall. Trim area is 1/2" per side (1" max.). See top views at left and above.

Verify all rough-in dimensions prior to installation.

Consult local and national codes. Conformity and compliance to local and national codes is the responsibility of the installer.
