

7904, 7904VB Hose Box – Recessed

Specifications

Materials

Box is constructed of Type 304 stainless steel. Box and door are #18 gauge. Stop and valve body are cast brass.

Construction

Designed for walls not subject to freezing. All seams are heliarc welded and ground smooth. The door incorporates concealed hinges, and comes equipped with a cam and cylinder lock furnished with two keys. Valve parts are replaceable from the front. Supply inlets are 1/2" nominal copper female; outlet is 3/4" male hose thread.

Finish

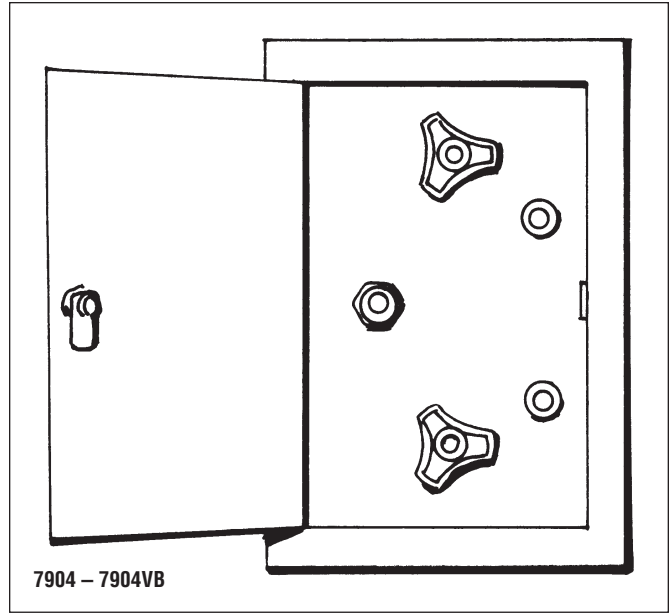

All exposed stainless steel surfaces are polished to a #4 satin finish. Exposed valve parts are chrome-plated.

Wall Anchoring

Box is furnished with four stainless steel clips which provide a secure means for anchoring to the wall construction.

Standard Equipment

Recessed hose box with hot and cold screwdriver stops and valves, locking door with two keys, and 3/4" hose connections.
