

7915, 7915VB Temperature Supply Box – Recessed

Specifications

Designed for interior or exterior walls not subject to freezing.

Materials

Box is constructed of 18 gauge Type 304 stainless steel. Valve bodies are cast brass.

Construction

Connected directly to 1/2" nominal copper female screwdriver stops. Replace parts from the front.

Finish

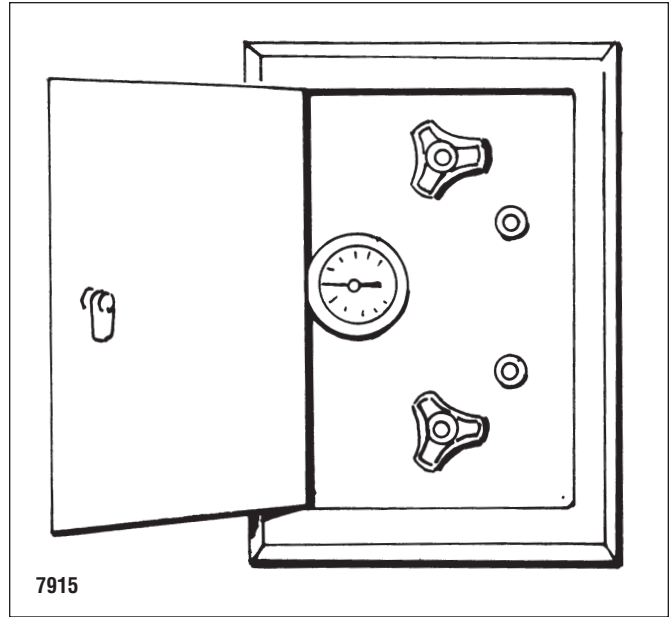

All exposed stainless steel surfaces are polished to a #4 satin finish. Valve components are polished stainless steel or triple chrome-plated.

Wall Anchoring

No exposed mounting fasteners. Unit is secured from within cabinet with mounting hardware furnished by others.

Standard Equipment

Valves furnished with check stop in each supply.
