

7907, 7908, 7919, 7920 Recessed Dialysis Box

- For Dialysis Machines Using RO (Reverse Osmosis) or DI (Dionized) Water Mixed with Dialysate Saline Concentrate
- Corrosion-Resistant Stainless Steel

Specifications

Material

Box is constructed of type 304 stainless steel. All exposed stainless steel surfaces are polished to a #4 satin finish. Inside of box has beadblast finish. All fittings are PVC (polyvinyl chloride).

Construction

All seams are heliarc welded and ground smooth to eliminate voids.

Wall Anchoring

Box is furnished with four stainless steel tabs which provide a secure means for anchoring to the wall.

Dialysis Supply Connection

The valve is a 1/2" PVC true union ball valve.

Standard Equipment

Recessed dialysis box with valves, discharge hose bracket, waste water receptor, and removable wall flange.

Model (Must select one)

- 7907 (S86-176)
- 7908 (S86-177)
- 7919 (S86-182)
- 7920 (S86-183)
